

A NEW WORLD

Sharing & Solidarity

ABOUT US

Progetto Continenti is a Christian, universal, and inclusive non-profit organization established in 1989 with the purpose of creating the conditions for a “new world” based on solidarity, participation, and sharing. This idea of a “new world” is not only possible, but currently even more necessary.

In the last 30 years we have been working in areas characterized by **poverty**, **exclusion**, and **socio-political fragility**. We use an approach funded on the **self-development** of the people, **partnerships** with local organizations, and **sustainability** of long-term actions.

Our organization was established privately and then recognized by the Italian Ministry of Foreign Affairs with the intent of operating in the fields of International Cooperation in developing countries, and of education to global citizenship in Italy.

According to **Progetto Continenti**, the new global era must be funded on solidarity and sharing so the root causes of poverty can be completely removed and the preconditions of a real humane “new world” created. The actions implemented are based on 3 important steps:

- ✓ **The self-development of people:** improvement of living conditions is possible if the locals become self-sufficient.

- ✓ **Partnerships** with local institutions when creating developmental projects. Empowering the local partners is fundamental to ensure sustainability and continuity while working.

- ✓ **Inclusion** and participation of the local community in the realization of the projects.

“Our Mission is to promote self-development in order to remove the root causes of under development and poverty”
